

At Midwest Pain Clinics we are committed to continuously providing healthcare through this unprecedented outbreak of COVID-19 while taking necessary steps to protect our patients and employees. COVID-19 imposes safety challenges to "in office" patient visits and conflicts with the social distancing strategy being implanted throughout the world. In response and in an effort to ensure continued treatment we are offering telemedicine visits. To provide this service it is imperative that our office have your email address linked to your personal health file. Once your email address is linked to your file, you will receive an email from Midwest Pain Clinics containing your username as well as a link to our Patient Portal. Follow the link provided in the email to set up your Patient Portal access. If you have already completed set up of your portal account you can access the portal by going to our website which is <https://midwestpainclinics.com> and scrolling down

Access the E Clinical Works Portal

to access the E Clinical Works Portal or by utilizing the following link: https://mycw133.ecwcloud.com/portal18508/jsp/100mp/login_otp.jsp.

follow the prompts for

Our Patient Portal allows you to track all aspects of your healthcare through our office. Once you have completed this an "in office" visit can be converted to a "telemedicine" visit during this time of uncertainty of the COVID-19 outbreak. A "telemedicine" visit can occur over a computer, laptop, smart phone/device with the camera and microphone capability enabled in the comfort of your home. If utilizing a

smart phone/device you will need to download the
